

MORIATY

For fans of: The Black Keys, The Dead Weather, Jimi Hendrix

Debut Album 'The Devil's Child' released 9/6/14

Devon 2 piece Moriarty are set to blaze a trail this summer with the release of their debut album 'The Devil's Child' on the 9th of June. TDC is a true statement of intent. A sound born out of their sweaty, noisy live shows that have seen them win an army of devoted followers in their native South West. The album is full of filthy dirty blues fused with moments of prog genius, hip hop and so many killer riffs that will take you back to the summer of RATM in 1993 all over again.

Moriarty comprise of Jordan Macneil West (Vox/Guitar) and Matt Partridge (Drums/Vox) both veterans of many noise making bands in Plymouth and Exeter, who finally both found a musical home when agreeing to dispense of all their other projects to work together.

Hard copies available on request.

The band are also available for interviews and sessions (location permitting) for all requirements please contact Andy Soden at Clean Slate Music via musiccleanslate@gmail.com .

Hi-Res photos, videos and soundcloud links can be found here:
